Subject Index

Alcohols
isotope-effect evidence for hydroxyl radical involvement in alcohol photo-oxidation sensitized by TiO_2 in aqueous suspension, 329
Aldehydes
temperature-dependent fluorescence lifetime of an aldehyde derivative of azulene, 247
Alkanes
formation of cyclic sulphuranyl radicals of the type $[RSSR_2]^{\bullet}$ from 1,3-bis-(alkylthio)propanes by laser flash photolysis of 1,*n*-bis(alkylthio)-alkanes, 233
Allyl radicals
reactions of excited C_3H_5 radicals: implications for the photolysis of propylene at 8.4 eV, 1
Amines
nanosecond laser photolysis of charge-transfer complexes between aromatic amines and hexabromodimethylsulphone in solid polymers, 73
Anthryl compounds
cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity, 263
comments on "Cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity" (H. Görner, *J. Photochem. Photobiol., A: Chem., 43* (1988) 263), 291
p-Azidoaniline
mechanism of *p*-azidoaniline photolysis in the presence of oxygen, 165
Azo dyes
the effect of metallization on singlet oxygen formation by azo dyes, 183
Azoxy compounds
depth profile of the formation of photoproduct upon photorearrangement of aromatic azoxy compounds in a rigid polymer matrix, 207
Azulene
temperature-dependent fluorescence lifetime of an aldehyde derivative of azulene, 247

Bipyridine
laser flash photolysis of 2,2′-bipyridine solution in cyclohexane, 91
Bleaching
singlet-oxygen-induced bleaching of high yield pulp sheets, 337

Carbon monoxide
photoinduced decomposition of aqueous formaldehyde in the absence and the presence of CO, 155
Carboxylic acids
the absorption and fluorescence spectra of 2- and 4-fluorenecarboxylic acids, 119
Charge transfer
nanosecond laser photolysis of charge-transfer complexes between aromatic amines and hexabromodimethylsulphone in solid polymers, 73
spectroscopy and photophysics of an intramolecular charge transfer complex: *trans*-4-dimethylamino-4′-(1-oxobutyl)stilbene, 43
Chlorobenzenes
photochemistry of chlorobenzene derivatives in solution: role of the substituent and its position in photoreduction, 21

Decomposition
photochemical and thermal decomposition of perfluoroglutaryl dichloride in the gas phase, 11
photoinduced decomposition of aqueous formaldehyde in the absence and the presence of CO, 155
Depth profile
depth profile of the formation of photoproduct upon photorearrangement of aromatic azoxy compounds in a rigid polymer matrix, 207

Eosin Y
the photochemistry of the semi-oxidized form of eosin Y and rose

© Elsevier Sequoia/Printed in The Netherlands

bengal in aqueous sodium dodecylsulphate solutions, 193
Ethylenes
cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity, 263
comments on "Cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity" (H. Görner, *J. Photochem. Photobiol., A: Chem.*, *43* (1988) 263), 291
trans → cis photoisomerization of 1-(1-naphthyl)-2-(4-nitrophenyl)-ethylene, 139

Fluorene
prototropic equilibria of electronically excited molecules: fluorene and its derivatives, 81
the absorption and fluorescence spectra of 2- and 4-fluorenecarboxylic acids, 119
Formaldehyde
photoinduced decomposition of aqueous formaldehyde in the absence and the presence of CO, 155

Hydrazine
kinetics of reactions between methyl and dimethylaminyl radicals formed in the flash photolysis of tetramethylhydrazine, tetramethylurea and tetramethyltetrazine in the gas phase, 31
Hydrogen-abstraction reactions
a comparative study of the photochemical hydrogen-abstraction reactions of a ketone and a thione, 313
Hydroxyl radical
isotope-effect evidence for hydroxyl radical involvement in alcohol photo-oxidation sensitized by TiO_2 in aqueous suspension, 329

Imidazole
photocyclization of triphenylimidazole in a polymer film, 105
Isotope-effect
isotope-effect evidence for hydroxyl radical involvement in alcohol photo-oxidation sensitized by TiO_2 in aqueous suspension, 329

Ketones
a comparative study of the photochemical hydrogen-abstraction reactions of a ketone and a thione, 313

Lignin
a singlet oxygen generation system for use in the investigation of the involvement of oxygen in the yellowing of lignin, 345

Metallization
the effect of metallization on singlet oxygen formation by azo dyes, 183

Naphthazarin
T–T absorption and semiquinone formation in solutions of 5,8-dihydroxy-1,4-naphthoquinone (naphthazarin): a nanosecond laser flash photolysis study, 59
Naphthyl compounds
trans → cis photoisomerization of 1-(1-naphthyl)-2-(4-nitrophenyl)-ethylene, 139
Nitrobenzenes
the pulse d.c. photoconductivity of nitrobenzenes in ethereal solutions, 237

Perfluoroglutaryl dichloride
photochemical and thermal decomposition of perfluoroglutaryl dichloride in the gas phase, 11
Photoconductivity
the pulse d.c. photoconductivity of nitrobenzenes in ethereal solutions, 237
Photocyclization
photocyclization of triphenylimidazole in a polymer film, 105
Photoisomerization
cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity, 263
comments on "Cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity" (H. Görner, *J. Photochem. Photobiol., A: Chem.*, *43* (1988) 263), 291
trans → cis photoisomerization of 1-(1-naphthyl)-2-(4-nitrophenyl)-ethylene, 139

Photolysis
mechanism of *p*-azidoaniline photolysis in the presence of oxygen, 165
reactions of excited C_3H_5 radicals: implications for the photolysis of propylene at 8.4 eV, 1
Photo-oxidation
isotope-effect evidence of hydroxyl radical involvement in alcohol photo-oxidation sensitized by TiO_2 in aqueous suspension, 329
Photorearrangement
depth profile of the formation of photoproduct upon photorearrangement of aromatic azoxy compounds in a rigid polymer matrix, 207
Photoreduction
photochemistry of chlorobenzene derivatives in solution: role of the substituent and its position in photoreduction, 21
Phthalimides
solvent-induced changes in the photophysical properties of *N*-alkylphthalimides, 51
Plasticizers
perturbation of the photochemistry of poly(vinyl chloride) by a conventional aromatic plasticizer, 221
Polymers
depth profile of the formation of photoproduct upon photorearrangement of aromatic azoxy compounds in a rigid polymer matrix, 207
photocyclization of triphenylimidazole in a polymer film, 105
Polymers
nanosecond laser photolysis of charge-transfer complexes between aromatic amines and hexabromodimethylsulphone in solid polymers, 73
perturbation of the photochemistry of poly(vinyl chloride) by a conventional aromatic plasticizer, 221
Propanes
formation of cyclic sulphuranyl radicals of the type $[RSSR_2]^{\bullet}$ from 1,3-bis(alkylthio)propanes by laser flash photolysis of 1,*n*-bis(alkylthio)alkanes, 233
Propylene
reactions of excited C_3H_5 radicals: implications for the photolysis of propylene at 8.4 eV, 1
Prototropic equilibria
prototropic equilibria of electronically excited molecules: fluorene and its derivatives, 81
Pulp sheets
singlet-oxygen-induced bleaching of high yield pulp sheets, 337

Quasilinear photoreactions
kinetic analysis of quasilinear photoreactions by transformed absorbance–time equations, 109
Quinoline
solvent dependence of the excited state reactivity of 1-styrylisoquinoline, 293

Rose bengal
the photochemistry of the semi-oxidized form of eosin Y and rose bengal in aqueous sodium dodecylsulphate solutions, 193

Self-quenching
the role of T_1 self-quenching in photochemical decay of aromatic thiones, 303
Semiquinone
T–T absorption and semiquinone formation in solutions of 5,8-dihydroxy-1,4-naphthoquinone (naphthazarin): a nanosecond laser flash photolysis study, 59
Singlet oxygen
a singlet oxygen generation system for use in the investigation of the involvement of oxygen in the yellowing of lignin, 345
singlet-oxygen-induced bleaching of high yield pulp sheets, 337
the effect of metallization on singlet oxygen formation by azo dyes, 183
Sodium dodecylsulphate
the photochemistry of the semi-oxidized form of eosin Y and rose bengal in aqueous sodium dodecylsulphate solutions, 193
Solvents
cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity, 263
comments on "Cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution

and solvent polarity" (H. Görner, *J. Photochem. Photobiol., A: Chem., 43* (1988) 263), 291
solvent dependence of the excited state reactivity of 1-styrylisoquinoline, 293
solvent-induced changes in the photophysical properties of *N*-alkylphthalimides, 51
Stilbenes
spectroscopy and photophysics of an intramolecular charge transfer complex: *trans*-4-dimethylamino-4′-(1-oxobutyl)stilbene, 43
Styryl compounds
solvent dependence of the excited state reactivity of 1-styrylisoquinoline, 293
Substituents
photochemistry of chlorobenzene derivatives in solution: role of the substituent and its position in photoreduction, 21
Substitution
cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity, 263
comments on "Cis–trans photoisomerization of 1-(9-anthryl)-2-phenylethylenes: effects of substitution and solvent polarity" (H. Görner, *J. Photochem. Photobiol., A: Chem., 43* (1988) 263), 291
Sulphones
nanosecond laser photolysis of charge-transfer complexes between aromatic amines and hexabromodimethylsulphone in solid polymers, 73
Sulphuranyl radicals
formation of cyclic sulphuranyl radicals of the type $[RSSR_2]^{\bullet}$ from 1,3-bis(alkylthio)propanes by laser flash photolysis of 1,*n*-bis(alkylthio)alkanes, 233
Suspensions
isotope-effect evidence for hydroxyl radical involvement in alcohol photo-oxidation sensitized by TiO_2 in aqueous suspension, 329

T–T absorption
T–T absorption and semiquinone formation in solutions of 5,8-dihydroxy-1,4-naphthoquinone (naphthazarin): a nanosecond laser flash photolysis study, 59
Temperature dependence
temperature-dependent fluorescence lifetime of an aldehyde derivative of azulene, 247
Tetrazines
kinetics of reactions between methyl and dimethylaminyl radicals formed in the flash photolysis of tetramethylhydrazine, tetramethylurea and tetramethyltetrazine in the gas phase, 31
Thiones
a comparative study of the photochemical hydrogen-abstraction reactions of a ketone and a thione, 313
the role of T_1 self-quenching in photochemical decay of aromatic thiones, 303
Titanium dioxide
isotope-effect evidence for hydroxyl radical involvement in alcohol photo-oxidation sensitized by TiO_2 in aqueous suspension, 329

Urea
kinetics of reactions between methyl and dimethylaminyl radicals formed in the flash photolysis of tetramethylhydrazine, tetramethylurea and tetramethyltetrazine in the gas phase, 31

Yellowing
a singlet oxygen generation system for use in the investigation of the involvement of oxygen in the yellowing of lignin, 345
